Abbie's Story

On May 18, 2015, Abigail Zukowski was walking home from school when she was struck by an unyielding driver and killed while crossing at an intersection. Abbie, a native Staten Islander, was only 11 years old.

Abbie's grandfather, Michael DeCataldo is a third generation lifelong member of the society. Abbie's love for Mount Carmel only grew stronger as she would spend much of her summers getting ready for the annual Feast held every July. As friends, family, and the community mourn over the loss of such an extraordinary girl, Abbie's parents, Chris and Lisa Zukowski, are left with enormous funeral, burial, and medical bills.

For those who did not have the privilege to have known Abbie, her personality was brighter than sunshine and her smile was infectious. She loved life and was passionate about everything she did. Her friends and family were the one thing she said she could not live without. She was fascinated by our solar system and wished to become an astronomer. She loved soccer, spending time in her schools drama club, and going to Myrtle Beach, S.C. Abbie loved Taylor Swift, and hiking with her dad. She shared her joy with everyone around her. Before Abbie left this world, she left an inspiring message written in sidewalk chalk in front of her home. It lets us heal a little bit better and brings joy in ones life as it reads "Be Happy"!

This beautiful little angel deserves a resting place that reflects her life and her love of this world and for all who knew and loved her.
