

## TOGETHER ALONE

You all had a time of times my friends  
Some LSD trips were better than others  
Psychedelics, strobe lights and peace signs  
You were a gentle generation of lovers

We also had our time of times to remember  
Some days were better than others  
Trip flares, barbed wire and tepid rain  
We hugged and said goodbye to lost brothers

You had your time of times under the sun  
Carried signs and sang your protest songs  
Then you gathered together in the streets  
And made us feel like we didn't belong

We had our time of times when we returned  
No fanfare, music, or even a welcome home  
But you did stand there with your raised fists  
While we veterans stood together...alone

We all had our time of times together...alone
